

# Haliburton Highlands Secondary School

November 5, 2014

The Haliburton Highlands Secondary School Healthy Schools Committee would like to know what health issues are most important to you. The committee will be providing surveys for students, staff and parents to complete. We would appreciate your participation as these surveys will help determine the health issues and the healthy activities we will be doing in our school.

The surveys will help us determine the level of commitment our school has to becoming a healthier school. We want to know what we are already doing to support and promote health and how we might be able to improve areas that need help.

The Healthy Schools Committee will collect the results and share them with you. We hope this will encourage you to work with us to make our school a healthier place. Your ideas and input are important to us and we will support any new ideas you may have throughout the school year. We are all a part of our school community and make a difference!

If you have any questions or concerns regarding the survey please contact our Healthy Schools Champion Melissa Stephens at [melissa.stephens@tldsbo.on.ca](mailto:melissa.stephens@tldsbo.on.ca). We thank you for your input.

Sincerely

Melissa Stephens  
HHSS Healthy Schools Champion
